**Summary of Ambu® aScope™ 5 Broncho and
Ambu® aBox™ 2 Clinical User Evaluations**

Ambu

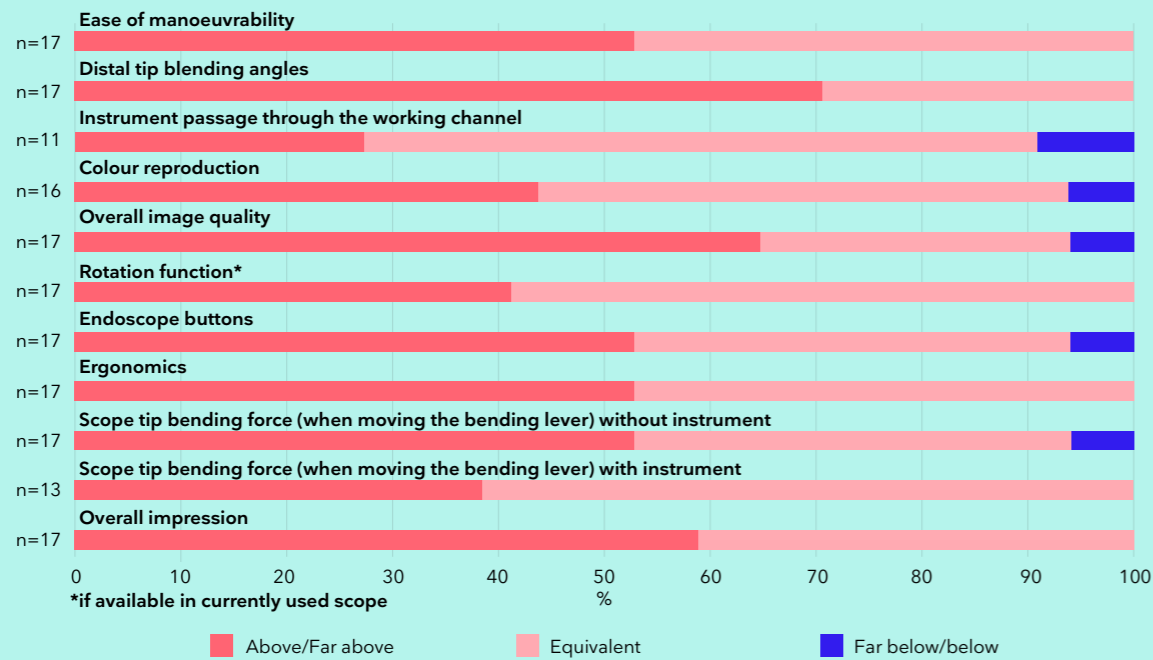

How do bronchoscopists in the UK and Ireland rate the aScope 5 Broncho single-use bronchoscope and aBox 2 displaying and processing unit?

17 bronchoscopists in the UK and Ireland assessed aScope 5 Broncho and aBox 2 in their diagnostic and therapeutic bronchoscopy procedures.

Their initial perceptions on clinical performance versus their mainly used reusable bronchoscope are summarised in the table below.

aScope 5 Broncho performance ratings vs. reusable bronchoscopes

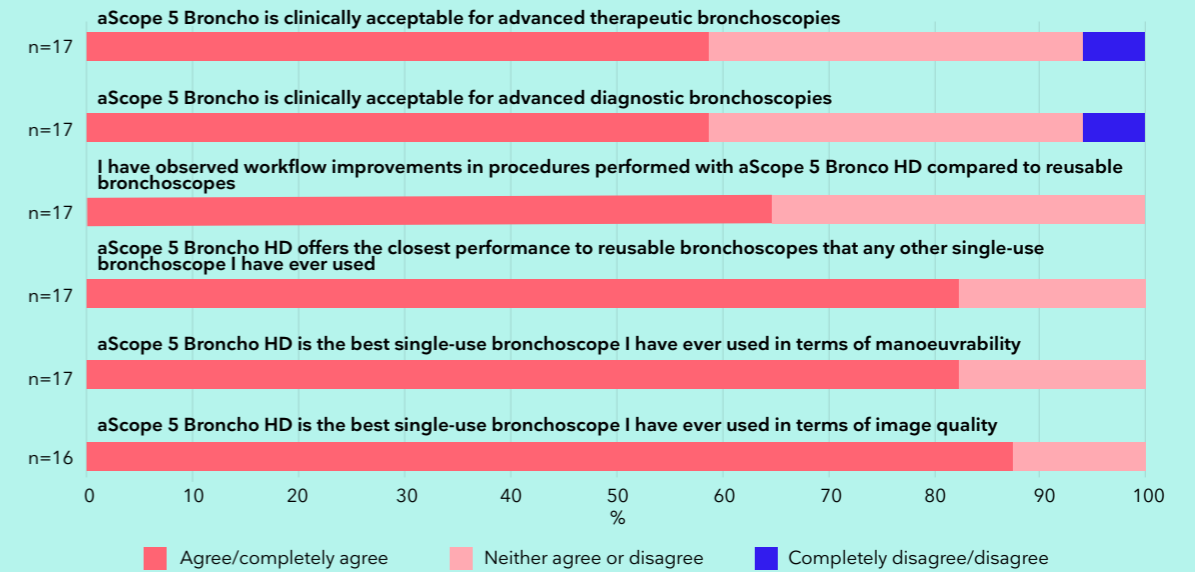

100% of bronchoscopists rated the aScope 5 Broncho as **above, far above or equivalent** compared to their mainly used reusable bronchoscope on clinical parameters including 'ease of manoeuvrability', 'distal tip bending angles', 'rotation function*', 'ergonomics', 'scope bending tip with instrument' and 'overall impression'.

*If this was available in the currently used reusable bronchoscope

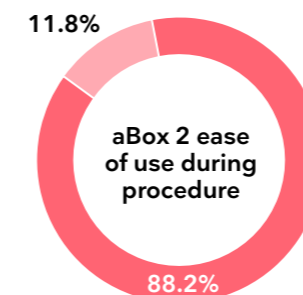

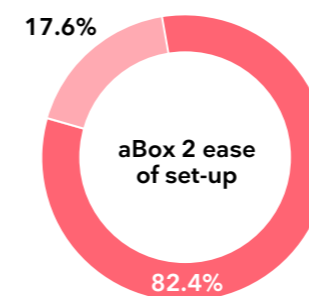

From the bronchoscopists surveyed, **81%** completely agree or agree that 'aScope 5 Broncho is a **new standard in single-use bronchoscopy**', and **65%** **observed workflow improvements** compared to reusable bronchoscopes.

82% of the bronchoscopists completely agreed or agreed the aScope 5 Broncho offers 'the **closest performance to reusable bronchoscopes** than any other single-use bronchoscope ever used' and 'is the best single-use bronchoscope ever used in terms of manoeuvrability and image quality'.

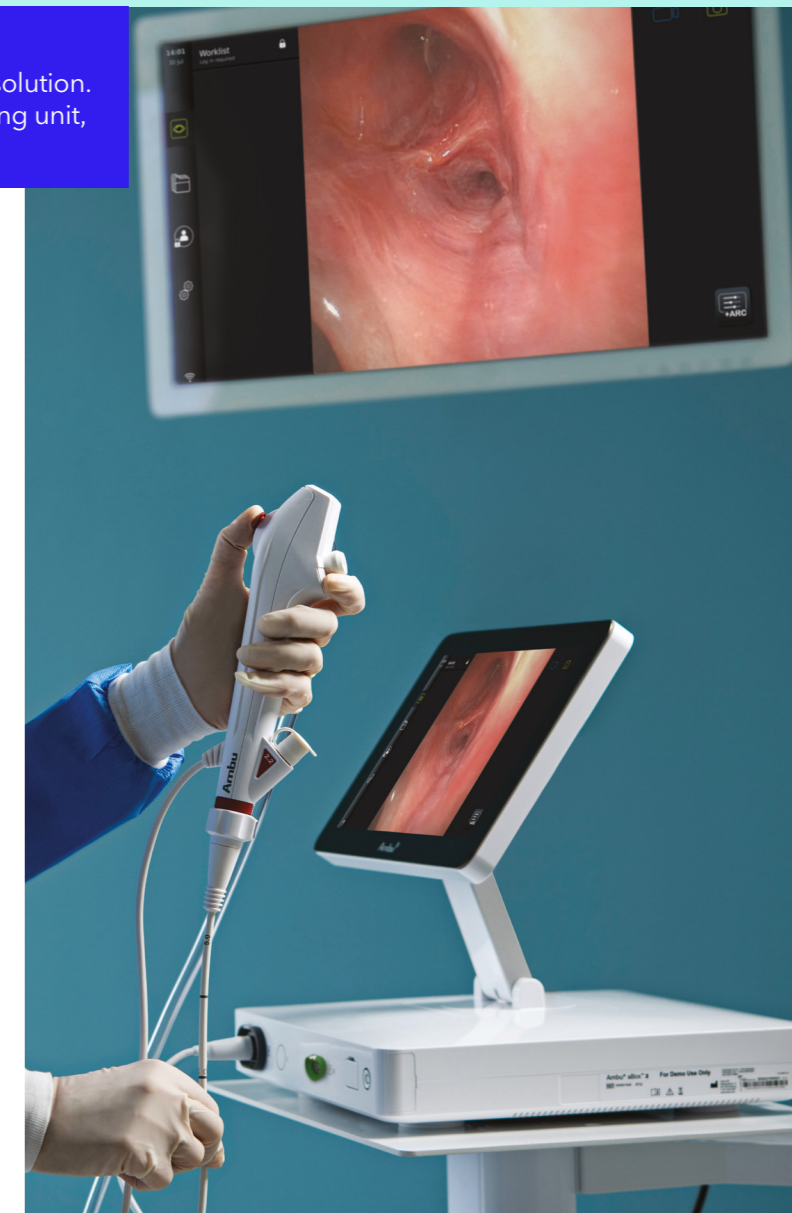

aScope 5 Broncho HD combines the familiar benefits of reusable scopes with the advantages of the single-use solution. It is compatible with the aBox 2 displaying and processing unit, which can easily be connected to external monitors.

Over **80%** of bronchoscopists rated the aBox 2 **very easy or easy to set-up and use**.

Very easy/easy Somewhat easy Not easy/not easy at all

A HISTORY OF BREAKTHROUGH IDEAS

Ambu has been bringing the solutions of the future to life since 1937. Today, millions of patients and healthcare professionals worldwide depend on the efficiency, safety and performance of our single-use endoscopy, anaesthesia, and patient monitoring & diagnostics solutions.

The manifestations of our efforts have ranged from early innovations like the Ambu® Bag™ resuscitator and the Ambu® BlueSensor™ electrodes to our newest landmark solutions like Ambu® aScope™ - the world's first single-use flexible endoscope. Moreover, we continuously look to the future with a commitment to deliver innovative quality products that have a positive impact on your work.

Headquartered near Copenhagen in Denmark, Ambu employs approximately 4,500+ people in Europe, North America and the Asia-Pacific region.
