## aView 2 Advance

### HIGH QUALITY IMAGING AND DUAL VIEW HELP YOU FOCUS ON YOUR PATIENTS

The new camera in VivaSight 2 and features of the aView 2 Advance monitor help you perform OLV procedures confidently:

- Integrated Dual View Mode enables you to view real-time video from VivaSight 2, aScope 4 Broncho Slim and other Ambu Bronchoscopes with a small diameter simultaneously
- Easily to record and store images and videos during procedures
- Full HD resolution and advanced image processing ensure high image quality
- 12.8-inch touchscreen with intuitive user interface improves workflow
- 180-degree rotation and easy-to-connect cable enable you to set up in the best position for the given clinical situation
