Ambu® aView™ 2 Advance Helps you keep your focus on the patient

Ambu® aView™ 2 Advance is a high-quality, portable full-HD monitor for single-use endoscopy, which is compatible with the Ambu® aScope™ 4 Broncho and Ambu® aScope™ 4 RhinoLaryngo endoscopes. aView 2 Advance helps you perform procedures across medical specialities confidently, streamline your workflow and stay connected and updated.

Excellent imaging helps you perform procedures confidently

aView 2 Advance features advanced image processing with adaptive light control on a 12.8-inch anti-reflective touchscreen ensures continuous optimisation of the image quality. The monitor also allows you to adjust colour, contrast, sharpness and brightness settings according to your preferences in varying clinical situations.

Flexible and intuitive solution streamlines your workflow

You can easily transport the lightweight monitor mounted on an IV pole or carry it using the built-in handle. It fits into small spaces, and you can rotate it 180-degrees to connect it in the best position for the given clinical situation. The graphical user interface will adapt automatically. After the procedure, it's simple to clean and disinfect using commercially available wipes, and it's ready to use again.

Forward-thinking design allows you to stay connected and updated

You can easily transfer your recorded patient imaging data to the PACS to enable access from the hospitals electronic health records (EHR). Repair options and the opportunity to upgrade are available to help extend the value of your investment.
